Table Tests

This is a simple table:

Header	Another header
field 1	something
field 2	something else

Here is another table, with more content in the cells:

id	process_name	window_name	duration
1	lxterminal	devilspie2	00:00:02
2	firefox-esr	jessp01/devilspie2: Devilspie2 is an X w	00:00:10
		indow (Lua) hooks mechanism; it supports	
		the following events: window opened,	
		closed, focused and title changed	
4	firefox-esr	Watch The Big Bang Theory - Season 6	00:00:05
